

SUMMARY

Analytical and research-driven professional with 5+ years of experience leveraging descriptive, inferential, and predictive analytics across public health, Finance, and SME sectors. Proven record in developing dashboards, ETL pipelines, and data models that enhance decision-making, reduce reporting lag, and improve program outcomes.

Highly skilled in **R, Python, SQL, Power BI, and M&E frameworks**, with a strong commitment to applying data science insights for development impact and evidence-based policymaking.

CORE SKILLS

- **Languages:** SQL, Python, R, & Excel VBA
- **Data Collection:** G. forms, KoboTool, ODK
- **Document typesetting:** LaTeX
- **Monitoring & Evaluation | Statistical Analysis | Data modelling | ETL Processes | Time Series**
- **Office suite:** MS Word, Excel, Google sheets.
- **Technical Writing:** Grammarly, Quillbot etc.
- **Research:** SPSS, QGIS, Semantic Scholar.

WORK EXPERIENCE

Data Analyst (Freelance)

- ❖ Bt-Hub Centre for Digital Skills and Innovation
 - Trained 80+ career analysts on data analytics with excel, R, SQL, Python and P.BI.
 - Co-Facilitated Data science bootcamps with the team in Zamfara and Abuja.
- ❖ Designed and built Business models that improved purchasing decisions and reduced overstock for several SMEs within Kaduna state.
- ❖ Led analysis and presentation Omics data for Florets Centre for advanced genomics and bioinformatics.
- ❖ Trained local Health staff on sampling survey techniques, data collection & quality assessment, and use of SPSS for Fundamental statistical Analysis.

Training Facilitator

Uzat Global Consulting, Abuja (Hybrid)

Aug. 2025

- Spearheaded the design and facilitation of data analytics and M&E Capacity Building programs, including the flagship masterclass “*Raw data to strategic Insight*”.
- Conducted training sessions on data visualisation, impact measurement, and data-driven storytelling while also contributing to the development of M&E reporting templates, data validation protocols & performance tracking systems.
- Lead the design of data collection tools, surveys, and performance dashboards to enhance reporting accuracy by over 40%.

AI Data Specialist

RWS Group -UK (Remote)

Jul. 2025

- Performs data annotation, labelling, and linguistic evaluation across multilingual datasets for AI and machine-learning models.

- Conducts data quality checks and root-cause analysis to identify inconsistencies, improving annotation precision and dataset reliability by up to 35%.
- Engages in pairwise comparison tasks, tagging, and content classification, enabling AI models to better recognize linguistic nuances and domain-specific intents.

Finance/Marketing Analyst

Moorlick Animal Multi-nutrients

Dec. 2024 – Nov. 2025

- Incorporated the *SPC-Six Sigma* to minimise defects and reduce variability to the standard 3.4 DPMO.
- Tracked and reported financial KPI's including budget variance, burn rate, customer churn rate, and cost-effectiveness analyses for supply chain logistics.
- Managed financial accounts, marketing expenses, payroll schedules, cost analysis, and balance sheets to ensure profit maximization.

Finance/Operations Manager

Medhal Nigeria Limited

Sep 2022 – Nov. 2024

- Managed NCAT's Cafeteria II services as an independent contractor for 2+ years with a developed structured operational process of a 24/7 cycle.
- Developed an automated stock inventory, Revenue tracking, and record management system to aid data-driven decision-making and timely reporting processes.
- Applied the *Six Sigma DMAIC* method to minimise variations in production, thereby maximising revenue up to a 62% net margin.

Project Analyst

Medhal Nigeria Limited

Jun. – Aug. 2022

- Co-supervised the Completion of a 250-capacity cafeteria for the Nigerian College of Aviation Technology, awarded to Medhal Nigeria Limited.
- Managed the procurement and supply of Cafeteria infrastructure for the Nigerian College of Aviation Technology, ensuring compliance and timely delivery.

WORKSHOPS

- Research and Professional Writing Techniques. (*Academic Workshop*)
- Writing Effective Grant Applications. (*Academic Workshop*)
- Adolescent Girl Initiative for Learning and Empowerment. (*Government*)

CERTIFICATIONS

- Statistical Analysis using R and SPSS.
- Datacamp Intermediate SQL.
- W3 Practical Data analysis & Visualization.
- Ethical Publication Practices for Researchers.
- INFORMS** Professional Analytics Certificate.
- Adolescent Girl Initiative for Learning and Empowerment. (*Certificate of participation*)

MEMBERSHIPS/COMMUNITIES

- Nigerian Association of Data Analyst & Business Intelligence Experts (NSDABIE)
- Chartered Institute of Statisticians of Nigeria (CISON)
- BT-Hub Data Science Community – Community Head

- Floret Emerging Scientist Internship Program (FESIP-2)
- Data Science Nigeria AI+ Program

PUBLICATIONS/CONFERENCES

- Development TNWED for modelling Breast cancer data (Journal article)
- Cure Fraction Models based on the TNWED for Survival Data; paper presented at the 8th PSSN Conference with the theme- “key to Unlocking Nigeria’s Economic Potentials.”

SELECTED PROJECTS

- **Operations Management System | Python + Streamlit**
Developed a web-based Operations Management System for to streamline workflow and inventory tracking. Enabled real-time monitoring of stock, orders, and operational KPIs.
- **Hospital Management System | Python + Tkinter**
Developed a modular HMS with patient records, staff management, ward admissions, and appointments with Integrated search/filter options for efficient hospital workflow management
- **CRM for Fashion Business | Google Sheets, AppSheet, Mobile Apps**
Designed and implemented a CRM to manage customer data, orders, and measurements. (proved to yield efficiency by over 40%)
- **Malaria Epidemiology Analysis | R, QGIS**
Built reproducible data pipelines and geospatial visualisations for public health stakeholders.
- **HR Employee Management Project | Power BI + VBA**
Built an interactive HR employee dashboard for performance metrics, and implemented filterable, searchable dashboards for HR and management teams.

VOLUNTEER SERVICES

- STEM tutor for pre-university aspirants (ILYASAWA Foundation, Zaria).

EDUCATION

 Master's Degree in Statistics Ahmadu Bello University, Zaria	2021 – 2024
 Bachelor's Degree in Statistics Ahmadu Bello University, Zaria	2013 – 2017
 Computer Software Applications Nuhu Bamalli Polytechnic, Zaria	2012
